

**10 reasons why
your doors should
be fitted with
Yale multipoint
locks**

1

The world's favorite lock – made in the UK.

2

Up to 14 locking points

Provides high levels of security and guarantees you complete peace of mind.

4

Stainless steel faceplate

For robust, non-corrosive and long lasting performance.

5

Roller lock
(stainless steel)

Provides a weatherproof seal and offers additional security by tightly binding the door sash and frame together.

6

Pick resistant (optional)

Yale high security pick resistant cylinders are available for maximum security.

(Remember, for a valid guarantee, genuine Yale cylinders and keys must be used).

3

Hookbolts including centre hookbolt

Engineered to provide high levels of security against forced attack by gripping the frame and sash together. This also creates a weather tight seal.

7

Insurance approved

Yale locks are endorsed by the Master Locksmith's Association and all leading insurance companies.

**INSURANCE
APPROVED**

10

Handles

Full range of door handles available, lever / lever or lever / pad

8

Secured by Design

Accredited by Secured by Design – Yale high security locks are 'Police Preferred Specification'.

9

Product Guarantee

For complete peace of mind.
